## Shovel Head

### ■ Material

Imported hi-carbon stainless steel  
Hardness:HRC50-52 Tensile: Mpa≥735  
Limit standard:15T

### ■ Feature of hi-carbon steel

1. The carbon content is more than 0.6%
2. High intensity and solidity.
3. High elastic limit and fatigue limit.
4. High hardness(HRC60-65) and abrasion resistance after heat treatment.
5. The hardness is moderate in annealing state, with better machinability.

## Connecting shaft

The shaft is made of aluminum alloy for airplane with a tensile strength of Mpa350!

Inlaid enhanced steel can cut iron easily

## Special nut

With the small newly added steel flake in the nut, the bolt and the nut could connect with each other more tightly and stably, which makes the shovel head impossible to loosen

Superior silicagel bears the strength and avoids abrasion better
